Dear Trustees:

I received the letter sent in response to my request for the financial information of the Iuka Gospel Assembly Church. Although my request was denied, I feel that you should be made aware of my purpose in requesting that information.

I have been an active member of Gospel Assembly Church under the leadership of Zolon Zeh. My involvement in the functions and activities of the church has always been whole-hearted because I felt that the motives of the leadership were altogether sincere and commendable. The church has always been a vital part of all my childhood and young adult years.

I was greatly shocked to hear rumors over the past year that Zolon Zeh has had sexual relationships with numerous women in the church. The rumor is also circulating that there have been large monetary settlements paid to some of these women in order to keep these sexual improprieties hidden. The seriousness of these allegations and the legitimacy of the sources has deeply shaken my faith in the character of Zolon Zeh and the leadership of Gospel Assembly Church. No explanation has been offered that would disprove these rumors, and I do not feel that the leaders of the church have been forthcoming with the truth. In order to discover the truth for myself I have provided a list of questions below that I like you to answer simply yes or no.

1. Has Zolon Zeh had sex with three or more women in Gospel Assembly Church?
2. Has Zolon Zeh had sex with a minor?
3. Have any of these women been paid large monetary settlements?

My only intent by writing this letter is to seek out the truth. I feel confident that you will see the validity of my questions and respond by July 31, 2009.
